

## A NEW MARIST ON MISSION

We got all it takes to be friends, united like a city

Big time city in the forest

We never caught nervous, we never say never

We never get bad and we never say that

We getting money, they spend it on we

Our leaders so tight and

Our youth not bad

Right now we are Marists

Let's go into the time like Marists

We celebrate the past,

We are going to lead the nations

All this pays we are going into the nations

We are the light of the nation

The light of the world

The ones to bring life back to the people

To the poor and the worlds and lead them, back to life and then save them,

Right now, O yeah, A new Marists on mission

Step to south

Back east

Touch the west

And look around we

Working all along

Seeing all the light

Shinning and sparkling like the stars.....

With people living around it.....

Tribalism, Statism and

Everything that tends to divide us

When God comes to..... Make us one

The gathering of little kids then we

Began the formation with the

Marists Brothers

We are the Great Marists

We work with one heart

Living in unity

In this wide world

Coming to know the way to serve our God

With People living around it...

When God comes to.... make us one....

### VERSE 3

Yeah

Now speaking from experience

Our leaders won a contest

A contest full of success

A success in the progress

Now move into system

We have never missed our focus

A focus of joy and happiness

To bring life back to the poor and give them joy

To make them feel so at home and praise his name

He's the God of the Marists, our heavenly king

He's our father, our lover

Our maker, we need him

Our master, we praise him -

*Our leader we bless him*

*His our King*

Our leader, we bless him

He's our king (eco x3)
