More on the network

What is the origin of the Marist Global Network of Schools? It is a response to the call of the XXII General Chapter, to “Journey together as a Global Family”

What is the Network about?

The Network will provide a space, a platform: Champagnat Global, so that the entire Marist school community can meet globally and promote activities of interest, which promote educational quality, connection, exchange, innovation and technology, evangelization and social transformation.

It is the place where initiatives such as:

- Cultivate Marist identity and sense of belonging-
- Sharing experiences and best practices.
- Foster synergies and collaboration
- Promote exchange among members of the school community
- Carry out international academic projects.
- Promote solidarity and social transformation.
- ... and many other proposals that will emerge while the Network is being woven.

The Co-creation of the Network

The Marist Global Network of Schools is being developed collaboratively and will be the fruit of a co-creative process that ensures empathy and draws on the skills and richness of all members involved in the Marist educational task.

The network is weaving

As a result of the process of working with representatives of the Marist school community, a number of areas of opportunity and themes have emerged, which will be further developed at a summit and which will form the basis of the first groups that will make up the network activities.

Br. François, first Superior General of the Marist Institute

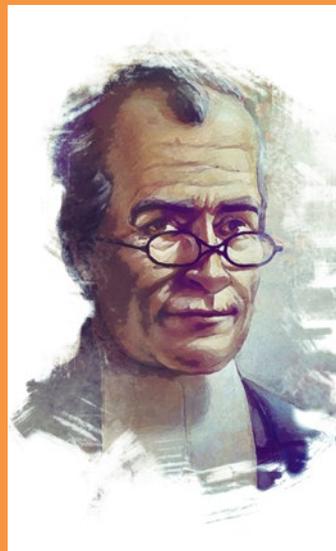

30. MARCELLIN'S MANUAL OF PIETY AND LIFE

Reflection on a spirituality proper to the Institute will continue. Already discussed (see #25) is the circular on faith written by Brother François. With the legal approval for France and the separation of the Marist Fathers, we will reflect on those aspects of the Institute that do not give identity. Two texts were published in response to the identity and spirituality proper to the Marist Brother.

In 1855, the Manual of Piety was published, which was at the same time a catechism for the formation of novices and an anthology of common prayers, in which Brother François played a great part.

In 1856, The Life of Joseph Benedict Marcellin Champagnat was published, the text was written by Brother Louis-Marie, Assistant General at the time of Brother François. This text was motivated and revised by Brother François. This text has been the principal work of study of the Founder's life for most of the Brothers. It has two parts, one emphasising the biography of the founder and the other emphasising his virtues.

On 9th October Brother Denis Ntacyica celebrated his Golden Jubilee while Brothers Frank Mwambucha and Boniface Chirambo celebrated their Silver Jubilee at Marist Secondary school in Mtendere, Dedza, in Malawi. In addition, on this very day, Marist Brothers were marking 75 years of the Marist Brothers presence in Malawi.

Unity in diversity works among Marist Brothers: Brother Denis Ntacyica is from Rwanda (Province of East Central Africa). Brothers Boniface Chirambo and Frank Mwambucha come from Malawi (Southern Africa).

The main celebrant was Bishop Peter Adrian Chifukwa. Brother Norbert Mwira, the Provincial of Southern Africa was there. The Provincial Sister Mercy Mwira

too was in the audience.

Diverse beneficiaries who passed through our institutions were present and spoke well about our presence. The Bishop also appreciated the works Marist Brothers are doing in Malawi. He encourages the Marists of Champagnat to remain faithful to the work they do and that they must also reach out to the poor.

The Marists thank God for being with them and thank the Marist Brothers from Canada for coming to introduce the Marist Brothers way of life in Malawi. With God's help and Mary's intercession they hope to continue serving the country and the church through evangelization through education.

Marist Brothers apostolate in Malawi

ROMANIA

ST MARCELLIN CHAMPAGNAT CENTRE BUCHAREST CELEBRATES ITS 15TH ANNIVERSARY

On 6 October, the Saint Marcellin Champagnat Centre in Bucharest celebrated its 15th anniversary. In this centre in Romania, part of the Iberian Province, the Marists work with children, adolescents and young people in vulnerable situations.

The Saint Marcellin Champagnat Centre was opened in 2006 with the aim of providing and guaranteeing, for an indefinite period, a permanent home, a family environment, educational support, personal development and professional training for children, adolescents and young people between the ages of 6 and 18. The main objective of this work is to offer and facilitate a quality education that leads to social integration; to form the integral personality, to promote human and Christian values of respect, solidarity, generosity and love for those around us. The programmes have a deep socio-educational character and have as their main focus the areas of Bucharest and Ilfov County.

coming from fragile families who cannot take care of them.

The San Marcellin Champagnat di Bucarest centre consists of four houses where minors can live with dignity. Each house in the centre has a capacity for 8/9 minors. In the Marist centre, the aim is to provide the children with

all the necessary elements for their biological, personal and intellectual development: food, clothing, school materials, health care, recreational activities, etc.

The Association of Marist Brothers in Romania was founded after the initiators of a programme of social and formative intervention became aware of the concrete situation in the different nations of Eastern Europe. At the beginning it was a small reception centre, but over time it has become a residential area for children and young people in a state of abandonment or

In these 15 years, the Marist Brothers of Romania, in the Province of Ibérica, have sown a future for each of the children living in the reception centre. More information on Marist activities in the country is [available in this links](#).
