From La Valla to the Hermitage, a future was envisioned where education and solidarity could break down barriers and change lives. For 200 years, the Marist mission has remained a **beacon of hope and transformation** that transcends time and space.

With this enthusiasm, determination, and confidence, we come together to **seek and design and prospect future horizons.**

In this strategic meeting, we will explore opportunities and develop new approaches to management and governance which will **strengthen creative and servant leadership capable of transforming, innovating, and generating sustainability** in our Marist life and mission.

Let us move forward, Marists.

With inspiration, collaboration, and long-term vision, **we will shape a thriving and sustainable future** for Marist life, mission, and the children and young people we serve.

With each today, we build a better tomorrow.

risings

Almost 200 years ago, in 1824, Marcellin Champagnat began the construction of the house Notre Dame de L'Hermitage, where he saw the need to strengthen the inspiration begun in La Valla.

The spirit lived at the Hermitage generated the identity of the Marist charism of the first Brothers: love of work, a Marian spirituality, family spirit, and formation to work in schools.

a 200-year legacy

The Hermitage was built by the hands of Champagnat and the first brothers, generating a spirit of hard work and brotherhood, which forged the Marist way.

**a vision
of the future**

Charismatic life develops
and generates new
horizons and perspectives
for all Marists of
Champagnat.

The connection between the past and future

A place that connects
learning from the past with
visions of the Future,
bringing life to children
and young people in
diverse contemporary
realities.

The presence of Marcellin Champagnat

Together, Brothers and lay people continue to animate the Marist life and mission around the world in a sustainable and innovative way.
